

Second Announcement

UKEMS Conference 2009

32nd Annual Meeting of UKEMS
(United Kingdom Environmental Mutagen Society)

LEEDS: July 12–15, 2009

For more information:
www.ukems.org

Conference Organisation

Volker Manfred Arlt (volker.arlt@icr.ac.uk)
Institute of Cancer Research, Sutton, Surrey, UK
Tel: +44-(0)208-722-4405

Michael Routledge (m.n.routledge@leeds.ac.uk)
University of Leeds, Leeds, UK
Tel: +44-(0)113-343-7763

Topics & Invited Speakers

Opening Keynote Lecture

Frederick Beland (Jefferson, USA)

Transgenic Mouse Models & Metabolism

Daniel Nebert (Cincinnati, USA)

Roland Wolf (Dundee, UK)

Hansruedi Glatt (Potsdam, Germany)

Volker Manfred Arlt (Sutton, UK)

Takehiko Nohmi (Tokyo, Japan)

Harry van Steeg (Bilthoven, The Netherlands)

TP53 in Molecular Carcinogenesis

Gerd Pfeifer (Duarte, USA)

Pierre Hainaut (Lyon, France)

Monica Hollstein (Leeds, UK)

DNA Damage and Repair & Genome Stability

Eugenia Dogliotti (Rome, Italy)

Tanja Schwerdtle (Münster, Germany)

Jim Allan (Newcastle, UK)

Michael Routledge (Leeds, UK)

Roel Schins (Düsseldorf, Germany)

Paul Lewis (Swansea, UK)

Karen Brown (Leicester, UK)

Molecular Epidemiology Group (MEG) Session

Regina Santella (New York, USA)

Paolo Vineis (London, UK)

David Phillips (Sutton, UK)

Peter Farmer (Leicester, UK)

Yun Yun Gong (Leeds, UK)

Frederik-Jan van Schooten (Maastricht, The Netherlands)

Industrial Genotoxicology Group (IGG) Session

Stephen Dertinger (Rochester, USA)

Frank Martin (Lancaster, UK)

Daniel Smart (Ware, UK)

Catriona McComb (Ware, UK)

Catherine Priestley (Macclesfield, UK)

Young Scientist & New Investigator Session

To be selected from the submitted abstracts

Dear Colleagues and Friends,

On behalf of the United Kingdom Environmental Mutagen Society (UKEMS) we cordially invite you to attend the 32nd Annual Meeting to be held in Leeds July 12–15, 2009. The University of Leeds, right in the city centre, is renowned for its expertise and excellent scientific contributions in environmental and molecular toxicology, and cancer epidemiology, and will serve as the venue for the UKEMS Conference 2009, providing all required conference facilities.

The meeting will consist of 6 Sessions covering major themes in mutagenesis and carcinogenesis, human biomonitoring, biomarkers, molecular epidemiology, metabolism, genome stability, and industrial and regulatory genotoxicity. The UK Molecular Epidemiology Group (UK MEG) and the Industrial Genotoxicology Group (IGG) will each organise one session. For each session (including 4 keynote lectures), the Programme Committee has invited guest speakers to present their latest results. A preliminary programme and regular updates can be found on the UKEMS webpage (www.ukems.org).

An important aspect of the meeting will be the poster session and we cordially invite all participants to present their work. We will have a “Young Scientist & New Investigator Session” for which 9 talks will be selected from the submitted abstracts and, as at previous meetings, several prizes will be awarded for the best posters and/or oral presentations based on their scientific merit judged by an eminent panel.

A number of travel bursaries will be available for UKEMS student members.

Once again, we cordially invite you to the UKEMS Conference 2009 and we look forward to welcoming you in Leeds for an enjoyable and successful meeting.

Peter Farmer
UKEMS President

Volker Manfred Arlt
UKEMS Committee Member & Chairman of the Scientific Programme Committee

Michael Routledge
Local Organiser, UKEMS Conference 2009

Conference Fee

Registration Fee*	before 12 th May	after 12 th May
UKEMS members	250.- £	280.- £
Non-members	300.- £	330.- £
Students	200.- £	200.- £

*excluding conference dinner and accommodation
Please check at www.ukems.org for future registration information.

Abstract submission

Please check at www.ukems.org for future submission information.

Travel to Leeds

Leeds Train Station connects with all major UK cities assuring a convenient journey to Leeds. Travel time from Central London is around 2 hours.

Leeds is served by two major airports Leeds-Bradford and Manchester. Regular flights (including with various budget carriers) are available from many UK and European cities.

Accommodation

As at previous UKEMS meetings price-friendly en-suite university accommodation (bed & breakfast) will be available. Please check at www.ukems.org for future booking information. In addition, Leeds offers a large variety of hotels for all budgets.
